PROFILE

I am a self taught frontend engineer based in Mumbai, India. Over the past year, I have worked on personal and corporate projects using CSS frameworks, react and my photoshop skills. I am always eager to learn new skills and up for challenges!! I can bring innovative ideas to web development and contribute to building a strong team bond and a healthy working envoirnment.

WORK EXPERIENCE

FREELANCE — UI developer
2021 , MUMBAI

Created and managed websites using modern technologies while providing excellent customer service and support.

Personally consult clients with design suggestions and hosting recommendations.

Create and optimize UI/UX designs to increase overall aesthetic appearance and improve conversion rates

Add work +

PROJECTS

Personal Portfolio

Created and updated a personal portfolio over months of learning development using react-js and tailwind-css.

TextUtils

TextUtils is a simple utility tool for text editing made using react and bootstrap.

TODO-List

As the name suggests, a list of things to do, stored in local-storage made using pure HTML, CSS and Javascript.

Shadow Keys

Made using react and typescript for practicing touch typing and increasing typing speed.

Etch-A-sketch

A sketchpad on the web, with rgb sketching made using pure HTML, CSS and Javascript. This was a practice project in 'The Odin Project'

Microsoft-clone

Cloned design of microsoft website as of July 2022 using tailwind-css and react
